

## Cloud Based **Industry Specific**

**Section 1**  
Alphanumeric

**Section 2**  
Reading Comprehension

**Section 3**  
Spelling & Grammar

**Section 4**  
Timezone

**Section 5**  
Typing Test

**Section 6**  
Audio/Comprehension,  
Message Taking and Call Handling

# The Pre-Employment Test is cloud based with a timer built in to all sections and sub sections.

## Section 1 Alphanumeric

This section incorporates drag and drop fields to test alphanumeric skills

## Section 2 Reading Comprehension

- A sentence describing an emergency situation is shown for 20 seconds. Applicants must then answer true & false questions.
- A sentence with information is shown. Applicants must type in the correct answer to questions in boxes located on the screen.
- Applicant must click 'change' buttons to display correct answers to a complete address shown on the screen.

## Section 3 Spelling & Grammar

- Identify spelling errors
- Count grammatical and spelling errors in a paragraph provided
- Fill in blanks with correct answers from multiple choice

## Section 4 Timezone

- Geography, time zones and 24 hour clock are tested using calculation questions and multiple choice

## Section 5 Typing Test

- Copy typing into boxes provided

## Section 6 Audio/Comprehension, Message Taking and Call Handling

- Applicant presses play to listen to calls. When completed, a list of true/false questions are presented. Applicant is instructed that the call can only be started once, and if stopped it cannot be restarted, to listen carefully.
- Applicant presses play to listen to calls and records information from the sample call while it is playing into a sample message template.
- Applicant presses play to listen to a call. When completed, a question about the handling of the call will be presented.
